

CATALOGUE 2021

HEPCO & BECKER

HEPCO&BECKER - from motorcyclists - for motorcyclists!

Yesterday. Today. And in the future.

We are currently experiencing some very unusual times. Nothing is as it used to be, and as we know and love it. And who knows what the future has in store for us!

In this era of uncertainty, it's a good and precious thing to have some fixed points of reference: memories and experiences, friendships and shared experiences.

Riding your motorbike is certainly one of them! Luckily, we are still able to enjoy our freedom on our bikes. Whether braking into or accelerating out of a bend, or the low rumble of the engine; all this creates positive emotions that are good for the soul.

And let's not forget the experience of being in natural surroundings: We can enjoy the many different smells and fragrances of nature, the freshness of the morning and the warmth of the sun when it shines while we're out on the bike. This is something to be thankful for too.

We at HEPCO&BECKER are reliable partners when it comes to enjoying your hobby with our products over many decades and of course in the future.

You support us in so many ways: as our customer, critic and advisor! We would like to thank you in particular for your reports and the generally positive feedback on your experiences with our products, because this also helps us to keep improving our offer. Good, individual advice and proximity to our customers have always been very important to us, and we will be presenting our products in this catalogue format again in 2021.

Here's some more good news: We have made some improvements and modifications to our existing products. Take your time to browse and to be amazed!

We would like to highlight one change in particular: We have decided not to include the new 2021 motorcycles in the list of models, as this has led to numerous corrections and misunderstandings in the past. Once the new accessories have been developed, we will promptly publish them on our website www.hepco-becker.de along with the delivery times and prices. So you're always up to date with the latest news.

You can of course email or telephone us at any time. We look forward to hearing from you, and will be happy to answer any questions you may have. We hope you stay well (and loyal to us too)!

THE COMPANY

Picture taken in 1978 - far left: Paul Ehrhardt, then Managing Director

Paul Ehrhardt

Paul J. Ehrhardt

Nils Arnold

Mathias Dzemski

Hepco&Becker, a name that guarantees quality and stands for service for motorcycles. The one-man operation was founded in 1973 by engineer Franz Becker, who was involved in a fatal motorcycle accident in 1975. The business was continued and developed into a medium-sized company by young student Paul Ehrhardt. Its production in the early days involved essential metal parts.

1984 marked the takeover of hard-shell case production by Hepting & Co. from Stuttgart Feuerbach and the foundation of Hepco&Becker GmbH as the continuation of Franz Becker GmbH. Hepting was once one of the largest suitcase manufacturers with more than one thousand employees in Germany. In the seventies and the beginning of the eighties, Hepting manufactured thousands of motorcycle cases for BMW and Krauser.

Thanks to in-house case production, Hepco&Becker successfully provided new, attractive products and assumed a leading role on the market. Whilst a number of competitors have disappeared, Hepco&Becker has managed to remain successful to this day. The rhino became a key concept for the Hepco&Becker brand.

It represents independence and robustness, power and durability, just like every item that comes out of the Hepco&Becker establishment. The rhino has high loyalty values for many motorcyclists as it is not so easy to dissuade thanks to a certain stubbornness. Sustainability and reliability are, to this day, values which shape and define day-to-day business at Hepco&Becker.

THE COMPANY

1973	Franz Becker develops oil chain cases. Paul Ehrhardt works with him as a student.	2010	The „C-bow“ soft luggage system binds the benefits of soft bags with classic straps.
1975	Franz Becker has a fatal motorbike accident. Paul Ehrhardt is leading the business further.	2012	The tank bag series „Street“ for the Lock-it tank ring is developed
1978	It starts with developing customised luggage carriers.	2014	The range is expanded with new soft luggage (Royster) Design: Target design
1980	The first „Becker plastic case“ with aluminium moulding sees the light of day.	2016	Presentation of the new Orbit hard shell case for the C-bow holder at Intermot in Cologne
1985	Foundation of Hepco&Becker GmbH by Paul Ehrhardt and Dietrich Kühl. At the same time, the legendary "junior" case is launched on the market.	2017	Presentation of the new Xceed aluminium case at Eicma in Milan
1990	Production of chain cases is stopped, the first „Exclusiv“ aluminium case is introduced.	2018	Expansion of the Legacy product line Changes to company management
1992	Cruiser and Chopper become even more popular, Hepco&Becker expands its range to leather bags and sissy bars	2019	Presentation of the Xtravel line at the Eicma in Milan
1997	Insolvency and the acceptance of trademark rights by Hepco&Becker are followed by the re-establishment of Krauser GmbH.	2020	Presentation of the Xplorer top case 60 and the new Street C-Bow side bag
1998	The „Journey“ case line becomes another milestone in the company's history.	2021	Presentation of be excited
2000	Development and launch of production of centre stands.		
2002	The somewhat alternative „aluminium case“ made of plastic, the „Gobi“.		
2006	Thanks to the „Lock-it“ locking system, luggage carriers are easy to attach and remove in just a few quick motions.		
2008	The concept of a robust and innovative aluminium case leads to the development of the „Xplorer“ aluminium case series		
2009	A logistic challenge is relocating production, storage and management to the Pirmasens site.		

THE COMPANY

Head office in Pirmasens

Shipment / Depot

Hepco&Becker is a globally active, medium-sized company and a major manufacturer of motorcycle accessories with a brand profile. Motorcycles have been upgraded and customised with model-specific products for over 45 years now, and we employ approx. 80 people at our site in Pirmasens. Customers from over 60 countries appreciate the quality and variety of the Hepco&Becker product range. Regardless of in which country you are travelling:

The Hepco&Becker brand is renowned for its genuine pledge to provide long-lasting and quality accessories. Hepco&Becker has grown sustainably since its founding, and combines traditional model diversity with innovative, high-quality products "Made in Germany". Components and carrier systems for over 1,000 motorbike models have been produced over the years. Small series of products can even be produced for classic and newer models. We can also manage specific requests from customers.

All our employees are motivated with a passion for bikes, based on their crucial, individual role in the company.

Our commitment is to ensure employment in the region, sustain eco-friendly production and to conduct respectful working relationships. Future-oriented investments are made in training young people who will benefit from the vast experience of our long-term employees. We implement a flat, hierarchical corporate structure and ongoing employee training to also serve the personal and professional development of each individual.

This is how we encourage an innovative spirit and the creativity to develop new products.

This creative power forms the basis to expand our product range. At the same time, we strive to meet the high demands in terms of quality and products of our customers.

Hepco&Becker is your "one-stop shop". This enables optimal networking between individual departments. As the global demand for Hepco&Becker products is continuing to grow, 2021 will see the expansion of our site in Pirmasens.

A production/warehouse area, with a surface area of 1800 square metres will enable us to invest in the most modern tube processing machines and welding technology.

Our logistics and warehouse management departments also need extra capacity for the thousands of items.

ALUMINUM CASE PRODUCTION

ALUMINUM CASE PRODUCTION

XCEED

Exceeding limits

The XCEED sets new standards in the field of aluminium cases. The unmistakable appearance paired with the experience of more than 40 years of manufacturing motorcycle cases are the basis of this new unique case. A unique hydro-forming manufacturing process leads to excellent surfaces. The titan case is additionally provided with an anodized coating, which not only increases the corrosion protection and scratch resistance but also creates a beautiful and haptic surface.

The black version of the Xceed is powder-coated. The combination of high-quality aluminium and impact-resistant plastic creates an elegant, timeless case that is light and handy.

With great attention to detail, the design takes up contemporary forms and lines. This distinguishes it from other aluminium cases. No matter on which motorbike - this case is worth seeing.

XCEED

Robust bottom tray
Matt and glossy surfaces

Lock with integrated hinge
Comfortable carrying handle on both sides

Logo embedded in the lid

Anodised aluminium sheet with logo embossing and high-impact resistant plastic parts at high stressed areas

Integrated waterproof seal

XPLORER

The top class combining aluminium and plastic

A modern yet contemporary design of an extremely robust combination of anodized aluminum plate and highly impact-resistant plastic molding. This merging of design and functionality matches the modern spirit of many motorcycles. With its 1.5 mm thick anodized aluminum plate and tough plastic parts, this case absorbs impact and vibration with special ease. The anodized or powder-coated aluminum effectively prevents unsightly aluminum wear. The Xplorer has a high-quality surface structure. The lid opens to a 90° angle! This case is guaranteed watertight.

XPLORER

High-quality connection between sheet metal and frame thanks to adhesive-rivet connection

Waterproof thanks to integrated lid seal and raised case frame

Easy to use, stable metal locks (Fixing and lid lock)

Case and top case have several integrated slots for belt fastening e. g. for a matching top bag, which is attached to the case lid. High quality logo embossing

Xplorer top case and sicecase 40 have room for one helmet and more...

XPLORER CUTOUT SET

Set of cases and side carrier - high volume - less width - more value

Xplorer Cutout

This exclusive set for assorted models consists of a model specific stainless steel side carrier and two Xplorer aluminum cases. Due to its recessed 37 liter Xplorer case on one side the case is close to the bike.

On the other side is a special 40 liter Xplorer case. With this combination the width is reduced and the bike looks symmetrical from the back. It does not interfere with the stability of the bike due to the center of gravity being so close. The cases are made of shock resistant plastic molding and anodized aluminum sheets. The black version is powder coated additionally.

The side carrier is made of 2mm strong stainless steel pipe with 16mm in diameter. The surface is electro polished. The system is light and stable, perfectly for offroad use.

Xplorer Cutout Set
Item-no. see model list

Xplorer Cutout Set black

Tool Box

The robust, completely waterproof toolbox, made from shock-resistant plastic, excellently complements the side case carrying system, and is ideally connected between the side case and the back of the bike. By fixing it on the opposite side to the muffler, the empty space is used in the best possible way and it creates additional storage room. With a length of 29cm and a width of 8cm, both tools and replacement parts can be accommodated whilst saving space. The toolbox has a quick-open screw top. The universal version can be attached in other positions too.

XPLORER ACCESSORIES

Inner bag

Easier loading before and at the end of the ride, there's no need to remove the whole case – just the inner bag. Made of hard-wearing black fabric with 2-way zipper and adjustable carrying strap.

Item-no. 740015

ALU STANDARD

For everyday use and extreme situations

With the Alu Standard collection, we have created models that also stand up to extreme conditions with no trouble at all. The 1.5 mm thick, smooth, highly durable aluminum alloy helped give the collection its name.

With their right-angled shape, Alu Standard side cases provide spacious, practical storage space with no protruding corners or edges and are easy to load from above. The foam lid seal keeps the content of the case or top case dry. The different widths side cases can be combined for Enduro bikes.

Especially recommended for side carriers that have different mounting widths due to the high exhaust system position typical of Enduros. The Enduro set can eliminate this asymmetry.

ALU STANDARD

Embossing for edge protection and to increase stability and give the cases an unmistakable character

Case frame very robust and resistant due to manufacturing process

Watertight lid seal
Metal reinforcement below chrome rail

Steel support frame, chrome-plated with metal lock

Standard chrome rail
Stable metal lid lock

Top loader

PLASTIC CASE PRODUCTION

PLASTIC CASE PRODUCTION

GOBI

The answer to every question

If you want to go on new trails, you have to leave the old paths. After 25 years of motorcycle case development and production, the GOBI is the answer to every question. The goal was to create a real alternative to the ordinary aluminum case. And with the GOBI series, we've succeeded! If an aluminum case drops, it usually gets damaged. That reduces its functionality. The GOBI is made of highly impact-resistant plastic, colored through and through. Its special shell is extremely resistant and watertight, and it absorbs shocks and unintentional contact with the ground. GOBI gets its stiffness and stability from its double-wall construction. This also allows over 3.5 quarts of liquid to be stowed in each side compartment.

GOBI

Side case and top case made of robust and impact-resistant plastic, double-walled. Railing as standard on Topcase.

Watertight thanks to a special seal

Stable metal mounting lock, incl. key and cylinder

Sturdy metal lid locks including key and cylinder
Stability and design due to ribbed structure

Integrated ergonomic carrying handle
and rubber hinge cover

Lid locking device and lid holder, standard

JOURNEY

Aerodynamic design perfected

A timeless classic: Modern design combined with consistent quality and ingenious details. No matter which angle you look at your motorcycle from, the JOURNEY series' aerodynamic makes for a sweeping appearance and a safe ride. Plus, the JOURNEY series provides enough storage space for long trips and stays watertight thanks to special seals. The unique integrated bumper strip protects the case during minor jostling and impacts. The case's shell is made of impact-resistant, double-walled plastic. The removable covers can optionally be painted to match the bike color. This product has been proven over years.

JUNIOR / JUNIOR FLASH

Classic design by Hepco&Becker

For many years, the undisputed sales champ – always comes in first in comparison tests. Our „Junior“ case series.

It doesn't matter which version or size you pick: Junior cases are designed and tailored for strength and practicality in mind.

We offer Junior side cases with 30 or 40 liters of space. Robust and highly resilient through its double-wall construction, it forgives rough landings, protects its contents even during small jolts and is watertight. The case's side lid makes it optimal for loading. Two strong tension belts hold the content in place even when the lid is open.

The Junior 40 has space for a helmet.

JUNIOR / JUNIOR FLASH

High quality exclusive surface appearance
Covers are smooth and varnished; example shown here is silver

Available in 2 sizes, so well suited as enduro set

Side cases Junior / Junior Flash 40 space for one helmet, 2 tension belts in each case shell

Surface detail Junior Flash. Above is the Junior Flash with silver cover.
Cover can be removed and painted to match your bike.

Dynamic look on the bike due to asymmetrical design with separate cases for the left and the right side

High quality grained plastic surface

JUNIOR / JUNIOR FLASH ENDURO SET

The Junior series is available as an Enduro set with 2 different case sizes.

For those who like an especially slim bike width and have different luggage carrier widths due to the high exhaust system position typical of Enduros.

The Enduro set can remedy this asymmetry. Depending on which side the muffler is on, we provide the right combination of 30 or 40 liters case.

Side case set Enduro Junior 30 left / Junior 40 right
 Weight: 3,5/3,8 kg

TOP CASE MANUFACTURING

TOP CASE MANUFACTURING

JOURNEY / JUNIOR TOP CASE SERIES

The practical storage space for your motorbike

Within our Topcase series you can choose from a wide range of sizes from 29 to 55 litres capacity and different versions with and without covers. Whether for the scooter or as additional storage space on the tourer - we have the right topcase for every need. Combined with a Hepco&Becker rear rack tube type or an Alu-rack/Easyrack top case carrier, the top cases are securely fastened and cut a fine figure on your motorcycle even without a side case. If your bike is already equipped with an external supplier rack, we also offer top case versions with a universal adapter plate (top case pallet). For all Journey topcases there is room for at least one helmet and more. The shells are made of high-quality, impact-resistant plastic. 100% waterproof due to circumferential rubber seal and overlapping of the shells. Useful accessories such as backrests, railing and inner bags available.

Always enough storage space for at least one helmet and more...

Wide range of accessories:
Inner bags, railings and back rests

Suitable for every taste and need
Different colours, panels and sizes available

ORBIT SIDE CASE

Be different

Following the „Be different“ motto, we have created an innovative product for the motorcycle industry with the new Orbit side case.

A striking accomplishment at first glance, furthered with closer inspection, one can notice its distinct design cues. The Orbit side case is the perfect choice whether you have to run an errand or take a weekend trip. The case differentiates itself from other side cases due to the modern look. The All-In-One design concept combines a lid and retainer lock which makes handling very easy and allows to the contents to be locked safely.

The Orbit SC must be combined with the C-Bow carrier for your specific bike. Without the cases, the C-Bow Holder remains unobtrusive on the bike maintaining the look. Obligatory at Hepco & Becker: 100% waterproof!

ORBIT SIDE CASE

Orbit Sidecase

Item-no. 610293 00 01

INFO

Orbit Side case
Weight: 1,8 kg
Capacity: 15 Litres

STRAYKER

The elegant classic with a high-quality appearance

A classic of the highest quality! These elegant retro bags hark back to the leather suitcases of generations past. The Strayker case is not made of leather, but of high-resistance, watertight soft-feel material with a leather look that holds its shape excellently. With its color-contrasting corner applications made of enameled plastic, it is a true highlight for any roadster and a real alternative to hard-shell cases. Off the bike, it also looks great as an everyday briefcase. It has plenty of space for A4 folders or a laptop.

XTRAVEL

Explore & Travel - Xtravel

Explore & Travel - This motto gave its name to this new line of bags. A collection created to discover the new in the distance. No matter with which motorcycle, no matter where the journey goes - the range of applications of Xtravel is almost limitless. Multifunctional and universally applicable, almost no wishes remain unfulfilled.

We have succeeded in creating a collection that is waterproof as well as robust, solid, suitable for off-road use and simply stylish. In addition, the functionality of the attachment to the motorcycle is essential: Whether on the C-Bow holder, the side case carrier or the rear section of the motorcycle - every bag has its purpose.

You can drive with the Xtravel Basic around the world or with the Xtravel C-Bow version to the cafe, whether in unpaved terrain or on asphalt - Xtravel will also convince you.

XTRAVEL

ROYSTER

Design rethought !

Compared to other softbags, our softbag is visually striking with its fresh yet original design. It is made of robust, highly resistant EVA material, which gives the Royster bag its dimensional stability. The front is covered with abrasion-resistant 1200D polyester, which matches the surface finish in the existing Hepco & Becker collection. The back wall is coated with polyurethane. This improves soil resistance and makes cleaning easier. Their light weight makes them easy to handle and allows trouble-free carrying with a practical recessed handle. The C-Bow bag holder from Hepco & Becker allows theft-proof attachment to protect this attractive soft bag from sticky fingers.

ROYSTER REAR BAG - see page 88
ROYSTER TANK BAG- see page 98

STREET

The bag with understatement

The redesigned STREET softbags for our HEP&B C-Bow side carriers not only look good, but they are sturdy and the contents are easily accessible. We gave the bag a minor facelift in 2020, but rest assured: different design, same quality!

Not too bulky, but the compartment capacity is definitely roomy enough for a weekend trip. The bags can withstand a brief shower, while the waterproof inner pockets will keep the contents dry during longer downpours.

Our system with the C-Bow carrier has a decisive advantage over the conventional fastening with straps under the seat: the theft-proof and secure attachment with a locking mechanism on the C-Bow carrier. No slipping, no hanging down; they retain their great shape.

Made from robust and tear-resistant polyester fabric. The back panel is reinforced with PU, resistant to dirt and water-repellent.

The contents are protected with an additional, waterproof inner lining.

LEGACY

From the past grows new...

since 1975
LEGACY
by HEPSCO & BECKER

The Legacy collection is characterized by timeless chic and the use of uncompromisingly high-quality materials. Functional, robust, and smart with a quality found nowhere else.

Made of wear resistant linen, sewn in layers, and coated with a permanent water-repellent solution. In addition, the inner lining is made of waterproof polyester.

For the Legacy collection we use naturally refined leather materials: 3.3mm thick, naturally tanned cowhide. The leather is finished and treated by hand in our factory. This allows for a unique look. The quality of workmanship, craftsmanship, and choice of materials are the hallmarks of the Legacy line.

XTRAVEL REARBAG M

Explore & Travel - Xtravel

This rear bag is ideal for rear racks or the pillion seat! Made of the same material as the side bags, the rear bag is also made of the water-repellent outer material. The inner lining is made of water-proof polyester and can be closed with a roll-top closure.

The rear bag can be converted quickly into a backpack, which will make it especially practical for the daily use. Whether during a city stroll or a trekking tour, the bag can also be used besides the motorcycle.

For „frequent packers“ a volume increase was integrated by an all-round zipper, whereby the stowage possibility increases on 30 L.

ROYSTER REARBAG

Right behind you!

Now the Royster product family is complete! The unmistakable look of the Royster product line is complete with the addition of this rear bag .

The modern rear bag is a visual highlight for any pillion seat. Alongside the focus on packing volume and function, this bag claims to be contemporary yet entirely innovative.

The Royster rear bag offers two fixing methods: The bag can be mounted in a flash onto a model specific sport rack using the Lock-it fixing, or conventionally on a pillion seat using the reliable 4-point strap fixing. Thanks to both models, the rear bag is the perfect luggage solution for lots of sporty motorbikes.

Whether it's for a short trip or long journey, the Royster rear bag offers a generous amount of space to complement the Royster side bag and tank bag.

TANK GUARD BAG SET V1

The perfect complement for safety guards

Suitable for many different Hepco & Becker protective guards and a useful addition for all those who want to make optimum use of their luggage storage facilities.

Extremely high dimensional stability due to deep-drawn EVA material and very low weight. The lid shell is made of abrasion-resistant 450 D polyester with a PUR coating.

The bag is water-repellent on the outside and has a smaller waterproof bag on the inside. The wide opening angle and lockable 2-way zipper make the contents easily accessible.

Firm hold through strong velcro

SPORT STAR

The universal rear bag

The alternative to a tank bag. The Sport Star looks great and needs no additional handles or holders.

Depending on the model, it is fastened with straps to the seat or to a rear rack. With a zipper and compression straps, its capacity can vary up to 28 liters, depending on the version.

- A choice of sizes and designs
- Flexible fastening with straps to the rear rack or pillion seat
- Premium quality
- Robust Cordura fabric
- Variable capacity with zipper and compression straps
- Can also be used as a backpack or shoulder bag
- Rain hood as a recommended accessory

LEGACY

Your authentic style

since 1975
LEGACY
by **HEPCO & BECKER**

The Legacy collection is characterized by timeless chic and the use of uncompromisingly high-quality materials. Functional, robust and smart, simply with that certain something. Universal, practical rear bag for individual fixing to the motorcycle. Just the right packing volume if you require a bit more space. Made of heavy duty linen, sewn in several layers and permanently water-repellent coated. Complemented by naturally tanned leather.

TRAVEL

Watertight luggage

Our universal bag that does it all: For sports, quick outings or business trips, the Travel Zip is the ideal bag.

Combined with our separately available rear rack enlargement and tension belts, the Travel Zip bag is secure and easy to fasten.

Its extremely abrasion-resistant polyester fabric is designed for intensive use – extremely soil resistant and easy to maintain. With the adjustable carrying belt or the right adjustment to the straps, the Travel Zip can be carried as a backpack. Naturally, it is absolutely watertight. The generous opening with a TiZip zipper makes the bag easy to use.

Travel Zip L/M:

ROYSTER / STREET TANKBAG

Tank bag series, small to XL

Our Street tank bags expand your bike's transport capacity extremely fast: Thanks to the Lock-It tank ring, they can be mounted and removed without a lot of fumbling.

They let you bring along the travel accessories you need the most.

The attachment is on Lock-it Tankring (Fidlock patented) in connection with our Tank bags. The matching ring for your model, please refer to the Model list or on the Internet.

- 100% polyester (with water-resistant coating)
- No direct mounting on the painted tank
- With volume expansion
- Extremely high dimensional stability due to deep-drawn EVA material with low weight
- 3M-SCOTCHLITE™ Reflex piping, handle, luggage hook and shoulder strap
- Integrated Rain hood

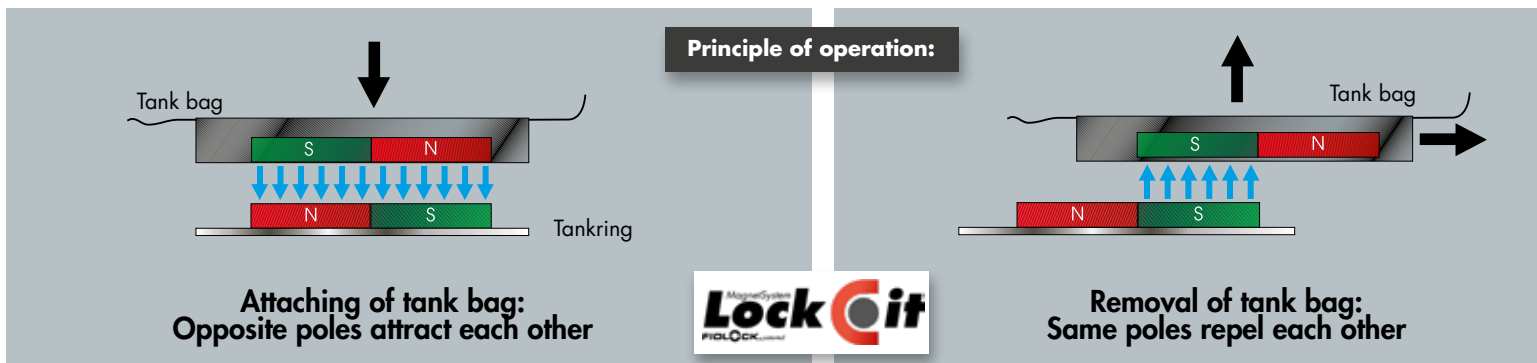

LOCK IT TANKRING - FIDLOCK PATENTED

Innovative tank bag attachment

The Hepco & Becker tank ring for fastening tank bags is a big advance for attaching tank bags to the motorcycle. The problems associated with positioning the tank bag are eliminated by magnetic centering. The side ribs attached to the magnets also mechanically secure the tank bag. When the lock is released, the poles of the magnets match and the tank bag is released from the attachment.

The tank bag's base plate shields the magnetic field of the tank ring's two permanent magnets, so that credit cards and electronic devices cannot be damaged. Simple and effective for more than 200 models; can be attached to the original fuel cap.

ROYSTER TANK BAG

Perfectly shaped

- No direct mounting on the painted tank
- Extremely high dimensional stability due to deep-drawn EVA material - very low weight
- Cover shell made of abrasion-resistant polyester D1200
- Side mounted reflectors for better visibility

LEGACY TANK BAGS

Your authentic style

Suitable for your Retro series, we now have the suitable tank bags for the Lock-it tank rings. The Legacy tank bags M are manufactured from hard-wearing canvas in green or black, sewn in multi-layers and coated for lasting water resistance. Complemented by naturally tanned cow hide leather. The leather is processed by hand in our factory. The quality of the finish, the craftsmanship and material selection are signs of the Legacy line. The Legacy tank bag is available in sand brown and black, including a „rugged“ look. Manufactured to have a high durability using 3mm strong shell cordovan with a sturdy, rigid interior trim. Perfect for smaller luggage. Stamped with the Legacy logo.

LEATHER BAG PRODUCTION

LEATHER BAG PRODUCTION

LEATHER BAGS

Attractive leather collection for highest demands

Our leather collection doesn't just stand out for its peerless quality. Our items are made only with topgrain leather. We never use cheaper, poorer-quality split leather! Even the leather's development process and its monitoring are important to us. Above all, we see to humane treatment of livestock and observance of European environmental standards during tanning. All of our saddlebags are produced especially for us in our traditional leather craft shop. It provides the highest-quality leather and workmanship. This can be seen right away: The bags hold their shape extremely well thanks to hidden shape reinforcements and a plastic double rear wall – no drooping, no flapping. Rugged clasps and corrosion-protected accessories are a given. Sensible accessories, such as inner bags and rain hoods are available separately. The leather bags are available with two different mounting versions:

for C-Bow holder

for leather bag holder

Special mounting instructions see page 129

LEGACY

Leather briefcase college-Style

Anyone who likes retro will love our new briefcase! It impresses with its hip college style. The inside offers space for all the important things: Both a 13 inch notebook and A4 documents can be stored in the large main compartment. Available in 2 versions: As a leisure bag without fixing option on the bike and for fixing to the C-Bow bag holder.

All of our leather bags are produced by us in our traditional leather craft shop with leather from European livestock, tanned according to the strictest environmental standards.

Quick-release fastener with mortise locks. High-quality, corrosion-resistant metal and naturally tanned leather are used here

RUGGED

Unconventional leather bag

This bag is outside the mainstream and we like it that way! With its unconventional design, it commands to push design even further with a modern „used“ look. The RUGGED combines luggage capacity with an unmistakable appearance that looks best attached to your motorcycle. A surface treatment closes the cowhide's pores, reducing water sensitivity and increasing soil resistance. A convenient carrying handle lets you take the bag anywhere.

All of our leather bags are produced by us in our traditional leather craft shop with leather from European livestock, tanned according to the strictest environmental standards.

NEVADA

A bag that that boasts a different design; Nevada focuses on what is important. No rivets, no shells, and no off-beat design elements! The Nevada has a refreshingly restrained design – without giving up what is necessary in a full-fledged leather bag. The bags hold their form extremely well and have hidden reinforcements and a plastic double wall. This means no drooping, no fluttering and a solid hold to the carrier system. All of our leather bags are produced by us in our traditional leather craft shop with leather from European livestock, tanned according to the strictest environmental standards.

Rear bags

since 1975
LEGACY
 by HEPACO & BECKER

The rear leather bag is now available to match the retro series. The Legacy Rear leather bag is available in sand brown and black, as well as in the „Rugged“ look. Made of 3 mm thick robust leather providing sturdy and rigid inner lining. Featuring two surrounding fastening straps, the bag is the ideal fit for tubular rear racks. Such as those offered for the new BMW R nineT models. This makes it easy and safe to attach. The universal and practical rear bag can also be attached to Sissybars and Soloracks. Ideal for small belongings. With Legacy logo embossing.

NOTICE FOR LEATHER BAGS

Leather bags are available in different versions and equipment. To help you choose, we present the possibilities here.

HOME INSTALLATION

Leather bag for leather bag holder – standard with holding clamps

Designed for home installation with a fastening set for attachment to the bag holder (leather bags cannot be removed). This requires holes to be drilled in the back wall of the leather bag.

NOTE: The leather bag matches only the bag holder it is attached to. Once the holding clamps are installed, a leather bag can no longer be changed.

FACTORY INSTALLATION

Leather bag for leather bag holder-optional with quick lock installed at the factory

Another option when using a bag holder is our factory-installed quick lock. It allows the leather bag to be removed from the bag holder at any time. The lock also locks inside the bag to deter theft. The leather bag and bag holder are ordered together and installed in pairs.

NOTE: The leather bag matches only the bag holder it is attached to. Once the quick locks are installed, a leather bag can no longer be changed.

Quick lock, factory fitted
Item-no. 700402

Leather bag for leather bag holder – optional with quick lock

Another option when using a bag holder is our quick lock at additional charge for home assembly. This allows the leather bag to be removed from the bag holder at any time. Moreover, the lock works from inside the bag, securing the bag from theft. Home installation is very complex.

NOTE: The leather bag matches only the bag holder it is attached to. Once the quick locks are installed, a leather bag can no longer be changed.

Quick lock, for self-assembly
Item-no. 700403

C-Bow leather bags for C-Bow holder

We recommend the leather bag's C-Bow version (if a C-Bow leather bag holder is offered for your motorcycle). This requires no home installation and switching the model to a different motorcycle with C-Bow is no problem.

CARRIER SYSTEMS

For more than 1000 motorcycle models

After choosing the case or bag, it's then a question of how to fasten them to the motorcycle. There are a variety of different attachment systems for this. On the following pages we present you with the luggage attachment possibilities. You can find out whether we also supply this for your motorcycle in the price list or keep up to date on the website.

We therefore provide different carriers not only for current models but also for youngtimers and motorcycles that are more than 30 years old. This has now exceeded 1000 models.

Hepco&Becker has premium side case carriers and side carriers in their range, exclusively for true classics. They manufacture products which not only impress when used but are also aesthetic and timeless.

For all of our carrier systems: these include the complete attachment kit with the necessary fittings and simple instructions.

For all products:

- Specially developed for the respective motorcycle model; universal parts available for particular solutions
- Cases and bags specially developed for HEPCO&BECKER
- Cases and bags from a single source
- No additional costs for additional adapters
- Metal tube made of forged German steel with high quality plastic coating, chrome plating or in stainless steel
- Comprehensive, simple instructions

PROTECTION AND ACCESSORIES

High quality components for your motorcycle

Globetrotters and touring riders have sworn by the products from Hepco&Becker for decades. In comparative tests carried out by trade press, we are regularly ranked the forerunners when assessing fitting accuracy, weather resistance and functionality during use; in short, it is an assessment of quality.

In addition to our extensive range for luggage transportation, we offer an abundance of other components which serve to optimise or protect and simultaneously visually enhance your machine: from lamp guards to under-body sealant - from side stand plates to centre stands. Standing securely on any ground.

Our new LED additional headlamps also apply to the topic of safety - see and be seen better.

All of our protective and accessory items include a complete attachment kit with the necessary fittings and simple instructions.

Suitable for DIY attachment. Your motorcycle dealer would be happy to help you on site.

For all products:

- Specially developed for the respective motorcycle model, universal parts available for particular solutions
- Mounting kits with fittings
- Metal tube made of forged German steel with high quality powder coating, chrome plating or in stainless steel
- Comprehensive, simple instructions

LOCK-IT SYSTEM SIDE CARRIER

The functional side carrier

BMW R 1250 GS

Outstanding fit – every carrier is adapted precisely to the motorcycle model. This means that the carrier fits the motorcycle exactly. During design, all model-specific characteristics are considered, such as the helmet and seat lock, turn signals, exhaust pipe height, etc. Manufactured from steel tube, which is reinforced with a special inner tube at heavily strained places. A special feature of the Lock-It side carrier is the ability to remove them in seconds.

- Removal in seconds with Lock-It screws
- Theft deterrence available with Lock-It lock
- Motorcycle's look not disturbed by removed bracket; retaining tabs that remain are unobtrusive.

It's so easy:

1. Losen the lower screw

2. Losen the upper screw

3. Remove the complete rack

SIDE AND COMPLETE CARRIER FIRMLY BOLTED

The sturdy side carrier

This type of side racks are firmly bolted to the motorcycle. Especially for Enduro-models, this is often the better choice compared to removable carrier systems when used in rough terrain.

A special form of the case carriers are the complete carrier, consisting of a side-mounted case carrier and a rear rack as a possible top case carrier. Both can only be mounted together.

Common to all versions is the solid construction made of precision steel tube, which is reinforced with a special inner tube at highly stressed areas.

EASYRACK

The support plate with foldable bracket for top case mounting

SUZUKI V-Strom 1000 ABS

HONDA CB 650 F

KTM 1290 Super Adventure

HONDA CRF 1000 Africa Twin

Easyracks are specially design as a carrier for our top cases while looking sleek and sporty even when riding without a top case. Here is why: The bow, required for attaching the top case, disappears when not in use by folding into the Easyrack. It no longer spoils the motorcycle's look. Even sitting on the motorcycle is easier when you can fold the bracket down. Every Easyrack is developed for the specific model and fits beautifully into the motorcycle's overall look. Production from premium aluminum gives the rack great strength and an elegant look. The rack design integrates additional luggage with belt fastening points for attaching luggage rolls, etc.

INFO

REAR RACK - TUBE CONSTRUCTION - WITH BOW

For top case mounting

ROYAL ENFIELD Continental GT 650

This rack variant enhances every classic and retro designed motorbike. Specially developed for every motorcycle, the rack is compatible with all top cases. Whether aluminium or plastic top case the fastening is simple and proven. Every rack is specially developed and produced for the corresponding motorcycle. High-quality German steel construction gives Hepco&Becker rear racks high strength and outstanding security. The premium metal coating maintains its look for a long time.

ENLARGEMENT FOR REAR RACKS

Luggage plate for soft luggage

Stable aluminum plate for extending almost any rear rack when loose luggage needs to be transported instead of top cases. Its raised edges and additional holding points make the extension ideal for carrying even larger luggage rolls, travel cases, tents duffels and more.

- Aluminum construction
- High strength, premium look
- Fastening options for luggage straps
- Available with attachment accessories
- Model-specific version or universal design for existing racks
- Deliverable in black and silver

Thanks to the identical hole pattern, the universal enlargement can be easily installed instead of existing Alu- or Easyracks. When used together with top loader side cases (e. g. Gobi, Xplorer) we recommend the small version of the extension.

C-BOW HOLDER BLACK

Holder for Hepco&Becker C-Bow luggage

BMW F 900 R

YAMAHA MT-09

DUCATI Hypermotard 950/SP

The C-Bow is the perfect holder for side cases and bags. Its elegant, unobtrusive design fits perfectly into the bike's overall lines. It keeps the bags safely away from the hot exhaust muffler.

The C-Bow technology allows the bags to be attached simply and easily to the C-Bow with a single click, firmly locking them to deter theft.

The bags are attached securely to the motorcycle and stay in position even when loaded.

On many models, the turn signals stay in their original position.

Horizontal or vertical installation

This improves the seating comfort of the pillion rider space, if a side pocket is mounted. See also page 183

LOCK-IT TANKRING - FIDLOCK PATENTED

Innovative tank bag attachment

Underside of a tank bag with matching counterpart to the tank ring

The Hepco & Becker tank ring for fastening tank bags is a big advance for attaching tank bags to the motorcycle. The problems associated with positioning the tank bag are eliminated by magnetic centering. The side ribs attached to the magnets also mechanically secure the tank bag. When the lock is released, the poles of the magnets match and the tank bag is released from the attachment. The tank bag's base plate shields the magnetic field of the tank ring's two permanent magnets, so that credit cards and electronic devices cannot be damaged.

INFO

LOCK-IT HOLDER

Secure attachment for rear bags

Principle of operation:

The Lock-it principle of the tank ring is also applied when fixing our tail bags or day packs to sport and mini racks. A special Lock-it tail bag holder with magnets on the tank ring can be fitted to this rack.

For the Royster rear bag Lock-it and the Street tail bag for sport racks, this tail bag holder is within the scope of delivery.

We provide a retrofitting set for Royster and Street day packs.

All options: see page 148

Matching bags

Lock-it holder for Sportracks - Set Item-no. 506100

If you want to carry a Street or Royster Daypack as a rear bag on a Mini or Sportrack, this holder set is required. Incl. closure unit for mounting on the Daypack and Lock-it holder for mounting on the Mini or Sportrack.

UNIVERSAL TOP CASE FASTENING

Secure attachment for top cases

Your motorcycle may already have a rear rack. If that is the case, why not mount a Hepco & Becker top case? There are universal mounts for those wanting this solution.

You have the following three options:

1. H&B Top case models including universal pallet: Due to the boring pattern, this enables mounting on existing rack constructions of the manufacturer. Pallet and mounting material are included in the kit. The following topcases are available as a universal version: Journey TC 30/40/50 as well as the Orbit TC 54.
2. Universal Alu/Easyrack or Rear rack tube type construction: universal solution for carrying every Hepco&Becker top case. These products must be mounted on existing base carriers.
3. An assembly of a universal rack is not possible: Then you will certainly find a specific solution in our model list.

SPORTTRACK

Carrier system for Soft Luggage

The problem of luggage transport on sporty motorcycles with short rear ends is well known: How and where can the luggage be reliably secured?

Hepco&Becker has the right solution for this: the Sportrack. This is simply clipped into place instead of the passenger seat and is therefore securely anchored by using the original motorcycle key. The seat bench can be exchanged for the Sportrack without any tools if necessary. A further advantage: The baggage is placed directly behind the driver in a streamlined and centre-of-centre-optimised position.

PROTECTION BARS

Engine and Tank guards - powder-coated

TRIUMPH Tiger 900

MOTO GUZZI V85

HONDA NC 750 X

YAMAHA MT-03

SUZUKI V-Strom 1050/XT

Whether you ride more on rugged terrain, on country roads or in town, a Hepco & Becker guard is always the right choice. Your motorcycle is always effectively protected against an unexpected mishap. And even more: If the bike falls over or makes unintentional contact with the ground, it can protect both bike and rider from more serious consequences.

Hepco & Becker protection bars follow the lines of the bike perfectly, giving it a customized appearance. Made with extremely stable tube-in-tube construction. In addition, a protection bar is always a sensible purchase to avoid cost-intensive repairs, such as the replacement of fairing parts or motor housings. They also serve as a lashing point when loading the motorcycle. Thanks to the extensive, easy-to-understand instructions, assembling is also possible for non-specialists.

- Protection during pushovers or falls; helps when tying down the motorcycle
- Vehicle-specific design for perfect match and easy installation
- Tough tube-in-tube construction
- Premium powder coating in black, silver, or anthracite depending on model
- Complete, straightforward instructions

NOTE: Tank guards cannot be assembled alone - some new models only (see pictures) Generally, only possible with the Hepco&Becker engine guard for the appropriate motorcycle model.

PROTECTION BARS WITH PROTECTION PAD

Engine and Tank guards - powder-coated

KTM 790/890 Duke R

Whether you spend most of your time riding over difficult terrain, on country roads or along city streets; a crash bar from Hepco&Becker is always the right choice. Your motorcycle will have effective protection against unexpected mishaps at all times.

But more than that: In the event of a fall or unintentional contact with the ground, you can protect the motorcycle and the rider from serious damage. The crash bars are equipped with a shock-absorbing element with additional protection pads that can absorb energy to minimise damage. The load is also eased on the support and screw connection of the structure. In this specific version, a protection pad is integrated on each side to provide additional protection.

PROTECTION BARS CHROME

Only the best for your motorcycle

TRIUMPH Thunderbird 1600

MOTO GUZZI V7 II / III

KAWASAKI VN 1600 classic

Our protection bars are tailored to the motorcycle and give them an individual character. Additionally, the motorcycle is protected against smaller accidents and ground contact, the bars protect the bike and the driver from bigger damage. The engine guards are made of polished, high shine chrome steel pipes. Using a pipe-in-pipe construction for better stability, every bar is developed for the specific bike and guarantees a perfect fit. The chrome prevents rust if taken care of properly. All guards are delivered with the necessary fixing material and simple mounting instructions.

PROTECTION BARS STAINLESS STEEL

Stainless steel electropolished - design and function

BMW F 750/850 GS

HONDA CRF 1100 L Africa Twin

Recommendation: our Crash bar bags set V1

Further information, see page 92

With passion and commitment, we took on the challenge of stainless steel and fully mastered it.

Our stainless steel series offers you more ways to upgrade your motorcycle with Hepco & Becker products. Those who love stainless steel will make a great find among our cross-brand offerings, and will get a high-quality, very durable premium product. When it comes to protecting a motorcycle, stainless steel products have obvious advantages.

The blasted, electropolished surface ensures a visually and technically excellent finish, and makes the guard more resistant to rust. Your bike has an upgraded design, look and feel, and it is protected against damage to the fairing or engine. From an ecological point of view, stainless steel is much more environmentally friendly than other common materials, such as aluminum or carbon, and is even 100% recyclable.

Available for many models. Find what you are looking for in the catalogue model list! You will find more pictures on our website.

FRONT-/REAR PROTECTION BARS

For complete all-round protection

BMW F 900 R

YAMAHA MT-03

HONDA CB 650 F

For selected motorcycle models of the 125 to 850 class, which are frequently used in driving schools, we offer protection bars which protect the front or rear of the motorcycle. The protection bars offer good protection against falling even at low speeds and can be combined with the model-specific Hepco&Becker engine and tank guards. Depending on the motorcycle model, these are available in the coating colours black or anthracite. Very good stiffness values of the stirrups are achieved by increased wall thicknesses and the pipe-in-pipe construction.

- Provides protection in case of accidents and falls
- Turn signals, clutch and brake levers, mufflers, fairings, etc. are effectively protected, with limited pillion passenger
- Reinforced tube-in-tube construction, powder-coated

HANDLE GUARD

Protection for handlebars

BMW R 1250 GS

Whether riding on dirt or asphalt, the handlebar guard reliably protect the rider's hands and the motorcycle's handlebars. The appearance of the motorcycle is enhanced and the off-road look is underlined by its addition. The solid steel tube is 12 mm in diameter and coated in black. Suitable for heated grips

Note: Only fits vehicles with the original handlebar bracket !

Available for many models.

SKID PLATES

Offroad protection

HONDA CRF 1000 L Africa Twin

Even a sidewalk can mean rough contact with the ground, and can damage the engine. This engine guard protects the manifolds and engine block from even the most violent ground contact or rock impact.

Hepco&Becker skid plates not only make your bike look great; they also enhance the off-road look and protect your bike.

- Effective protection against stone impact and obstacles during off-road use
- High-quality workmanship creates a visual highlight
- Made of high-strength aluminum, 3-4mm thick, depending on the model
- Precisely manufactured, adapted to fit the engine and exhaust system of each bike
- Complete mounting kit with fasteners, straightforward instructions

CENTER STANDS

For maintenance, fill-up, winter storage - simply practical

YAMAHA MT-09

Steady. Stable. Easy to use. Hepco & Becker center stands are extremely rugged and don't get in the way of your riding. The tension springs are made of stainless steel. Sophisticated geometry and anti-skid tread make it easy to stand your motorcycle securely in any situation. The precisely manufactured stands are very stable, sandblasted, black powder coated, and hold their value. Naturally, they're approved for the street. Center stands make maintenance easier and keep the bike stable, during fill-ups, for example. During winter storage, they take a load off the rear wheel.

- Does not limit banking
- Quality german steel tubing, sand blasted with powder coating
- extremely robust

Available for your bike ? See model list

LED FLOOTER

Let there be light !

Most accidents happen because the motorcycle rider isn't noticed. Riders are increasingly installing additional lights to see better and to be better seen. Hepco & Becker offers these LED Flooter with 3 High power LED's. With their adjustable clamps and four inserts, they can be attached to tubes 22 mm to 47 mm. They can be placed on tank guards tubes for example.

- 3 High Power LEDs, 12V
- E test symbol (no registration required)
- Better light for street traffic
- Complete headlight set with two headlights, a switch, wiring harness, fasteners and housing guard
- Attaches universally: Tube clamps for 22 mm to 47 mm diameters horizontal or vertical placement

LED Flooter
- universal version
Item-no. 731106

LED Flooter - vertical mounting

LED Flooter - horizontal mounting

Adjustable clips allow mounting onto pipes

The provisions for attachment vary from country to country. Please inquire about the applicable legislation in your country.

polished and anodized	800000 00 09		

SPECIAL NOTES

For leather bag holder tube type only.

Leather bag for leather bag holder – standard with holding clamp for home installation

Designed for home installation with a fastening set for attachment to the bag holder (leather bags cannot be removed). This requires holes to be drilled in the back wall of the leather bag.

Leather bag for leather bag holder – optional with quick lock for home installation

Another option when using a bag holder is our quick lock at additional charge for home assembly. This allows the leather bag to be removed from the bag holder at any time. Moreover, the lock works from inside the bag, securing the bag from theft. Home installation is very difficult.

quick lock home installation	700403	piece
------------------------------	--------	-------

Leather bag for leather bag holder - optional with quick lock installed at the factory

Another option when using a bag holder is our factory-installed quick lock. It allows the leather bag to be removed from the bag holder at any time. The lock also locks inside the bag to prevent theft. The leather bag and bag holder have to be ordered together and installed in pairs.

quick lock incl. factory installation	700402	piece
---------------------------------------	--------	-------

NOTE: For all versions, the leather bag matches only the bag holder it is attached to. Once the quick locks are installed, a leather bag can no longer be returned.

C-Bow leather bag for C-Bow leather bag holder

We recommend the leather bag's C-Bow version (if a C-Bow holder is offered for your motorcycle). This requires no home installation and switching the model to a different motorcycle with C-Bow is no problem.

6 Original turn signals cannot be used. The same turn signals as in the front can be used. These turn signals are identical in construction with the turn signals for CB 750/900F.

7 Suitable from model year 2016 with plastic attachment on helmet compartment (see installation instruction).

8 Please specify year of manufacture when ordering.

9 Our rear rack is mounted on the original rack. The HEPCO&BECKER topcases equipped with metal retaining lock can be mounted on it.

10 Not suitable for Lock-it rear bag adapters.

11 On the left side different side carriers for chain and Beltdrive.

12 Can be combined with original and H&B center stand.

13 Rear rack only suitable for Journey Topcases 30 and 40 with universal adapter plate (610089 or 610206).

14 For model with plastic hump behind the seat.

15 For model without plastic hump behind the seat.

16 For model with two suspension struts.

17 For model with central shock absorber.

18 The rear turn signals cannot be used. New turn signals are included in the kit.

19 The complete carrier is designed for standard exhaust height.

20 Carrier fits for single and double seat.

21 Exhaust silencer may have to be lowered a bit.

22 Single rear rack cannot be combined with the side carrier.

23 Required when mounting the side carrier without rear rack.

24 For mounting without rear rack 4219992 00 05 is required.

25 Only Xplorer case 30/30.

26 Only Junior / Flash 30/30.

27 Only suitable for solo use.

28 Not suitable for Eldorado with split seat.

29 Only in combination with rear guard.

30 Alu Standard as well as Junior side cases cannot be combined with Alu Standard Topcase 45, Junior TC 55 and Journey TC 50/52.

31 Please specify if a side carrier or a rear rack from H&B is already installed!

32 Side carrier can only be mounted in connection with the rear rack.

33 Only the Journey topcase 30 or 40 can be mounted in connection with side cases.

34 Please specify if a backrest is available.

35 Rear rack not suitable for topcase; compatible with original sissybar.

36 One-sided side carrier.

37 For model without Honda original rear rack.

38 Turn signals included.

39 For model with cast wheels.

40 For model with spoked wheels.

41 Only in combination with modified tank guard 502994 (Please observe mounting instructions).

42 For model with double exhaust system.

43 For model with 4in1 exhaust system.

44 Not in combination with original auxiliary headlights.

45 For model with small tank.

46 For model with Sebring exhaust system.

47 In combination with original side carrier.

48 Only in combination with original sissybar.

49 Symmetrical complete side carrier/ side carrier for model with 2in2 exhaust system.

50 Top case carrier for original rear rack.

51 Rear rack cannot be combined with BMW original carrier.

52 Luggage carrier instead of the pillion seat.

53 Side case GOBI and top case GOBI cannot be mounted together.

54 Rear rack suitable for one-man seat. Suitable for top case.

55 Combination of Xplorer side cases with Xplorer TC60 is not possible.

56 Can be combined with original cases.

57 For model with single-sided swing arm.

58 For model with double swing arm.

59 Sissybar/Solorack can be combined with H&B side carrier and C-Bow holder for this model.

60 Sissybar can be combined with H&B side carrier for this model.

61 Not suitable in combination with 5014564

62 For model with two-man seat.

63

64

65 Not mountable alone, only in combination with H&B engine/tank guard for this model.

66

67 Twilight set for models with windshield.

68 Not combinable with original side carrier / side cases!

69 Mounting instead of the original rear rack.

70 Model from 08/09 on with welded footrests.

71 Rear rack only suitable for top case with universal adapter plate (610089, 610087 or 610206).

72 Mini rear rack only suitable for luggage rolls / bags. No topcase mounting possible!

73 Alurack available as optional accessory for topcase mounting.

74 Cannot be combined with original Yamaha engine guards. Adapter kit 700007408 required.

75 Using Xplorer side cases with Xplorer Topcase: Side case lid cannot be opened.

76 Engine guard (502404) cannot be mounted if the original skid plate is mounted.

77 Alurack, Easyrack or rear rack with C-Bow holder cannot be combined.

78 Specify which footrest system (black or silver) is installed.

79 Not for lowered version.

80 Not suitable for model with long seat.

81 Not suitable for model with short seat.

82

83 Can only be mounted in combination with original hand protector.

84

85 Pillion handle not applicable.

86 With original rear rack.

87 Legacy courier bag L only possible in combination with vertical C-Bow shifting.

88 Can be combined with original side carrier.

89

90 Alu Standard side case cannot be combined with top case.

91 With top loader side cases the lid cannot be opened when top case is mounted.

92

93 Not compatible with original windshield.

94 Can only be mounted in combination with original engine guard.

GENERAL / SPECIFIC NOTES
